Pristine

A Skincare Treatment
Like No Other

Pristine by Viora - for fresh, clean rejuvenated skin

Pristine is the most advanced microdermabrasion treatment for the face and body. Using genuine laser-cut diamond-tip applicators, Pristine exfoliates the skin surface while a gentle suction feature stimulates the production of collagen & elastin and improves blood circulation.

Your skin will look and feel clean, fresh and rejuvenated from the very first treatment.

Exfoliation

Reduction of fine lines & wrinkles

Acne scars

Sunspots

Uneven skin texture

▪ What Does Pristine Treat?

Using varied diamond tips, Pristine covers the full scope of aesthetic options, including treatments for thin, sensitive skin, rough skin zones and hard-to-reach areas.

▪ What Is Diamond-Peel Microdermabrasion?

Diamond-peel microdermabrasion is a safe, non-invasive skin resurfacing procedure that deeply polishes and stimulates the skin using densely packed laser-cut diamonds to remove dead skin cells and promote the growth of healthy, new cells for a smoother, more radiant and flawless complexion.

▪ How Does The Pristine Diamond-Peel Treatment Work?

Genuine, laser-cut diamond tips gently abrade the upper epidermal layer of the skin to polish the skin surface while a vacuum control stimulates the production of collagen and elastin. The combination of vacuum and pressure ensure diamond-peel uniformity and allow for personalized exfoliation treatments, according to skin type.

▪ What Does The Treatment Feel Like? Does It Hurt?

Not at all. While you may feel a slight tugging on your skin, the treatment is non-invasive, virtually painless, and requires no downtime. You'll enjoy a comfortable and quiet treatment with Pristine.

▪ How Long Does A Treatment Session Last?

Treatment time varies depending on face and body areas and skin condition. You can expect to complete a full facial in 10 - 15 minutes on average. Rough skin zones and larger body areas may last a bit longer.

▪ When Will I See Results?

Results can be seen and felt after the very first treatment with an improvement in skin texture and appearance. An overall, gradual improvement can be expected as treatment course progresses.

- Safe & Effective For Face And Body.
- Virtually Painless, No Downtime.
- Hygienic And Hypoallergenic.
- Immediately Visible Results From
- The Very First Treatment.
